## PROFILE

Driven web developer who enjoys turning ideas into smooth, user-friendly digital experiences. Always learning, always improving, and always looking for ways to make digital products feel simple and enjoyable. I like solving problems through clear structure, clean code and steady curiosity that helps me grow with every project.

## WORK EXPERIENCE

### Interact Ideas

2023

Web developer

- Web developer in a remote international team
- creating an educational website for teachers.
- Built interactive pages, helped develop login features and AI-powered content
- worked on page structure to improve usability and engagement.
