Junior Frontend Developer | React & Next.js Enthusiast
Motivated and detail-oriented developer with hands-on experience in building responsive web applications using React and Next.js. Eager to contribute to modern, user-focused products while continuously learning and growing in a collaborative environment.

Work Experience

Web developer, Interact Ideas PT (2023)

Remote / International Team Collaboration
- Worked in a collaborative team to develop an educational website for teachers, helping them create AI-assisted lesson plans.
- Built responsive and interactive pages using HTML, CSS, and JavaScript.
- Helped design and implement features like user registration/login and AI-generated teaching content.
- Integrated interactive, AI-powered educational videos to enhance user engagement.
- Contributed to the layout and structure of various pages to ensure usability and accessibility.
- Gained hands-on experience in real project development, teamwork, and problem-solving in an international setting.

Football trainer at the football camp (2024 and 2025)

- Led training sessions for youth players, focusing on skill development, teamwork, and discipline.
- Organized drills and small-sided games to improve technique and tactical understanding.
- Promoted a positive and motivating environment to support player growth and confidence.

Education

Srednja elektro-računalniška šola Maribor (2021-2025)

Computer technician - Software

FERI (Starting 2025)

Computer science and communication technologies

Skills

- Proficient in modern web development technologies including HTML, CSS, JavaScript, React, and Next.js.
- Strong understanding of responsive design, component-based architecture, and dynamic routing.
- Experience with backend integration using Firebase (Authentication, Firestore) and MongoDB.
- Skilled in building interactive and user-friendly interfaces with a focus on performance and accessibility.
- Familiar with REST APIs and handling asynchronous data fetching in frontend applications.
- Detail-oriented, creative, and solution-driven with a passion for clean, maintainable code.
- Comfortable working both independently and in collaborative team environments, with solid communication skills.
